Tabogon, Cebu

Objective

Information Technology student seeking an internship to further develop a foundational understanding of backend systems and cross-platform integration. Dedicated to transitioning academic knowledge into practical experience by assisting in the development of APIs and database structures and to contribute to web and mobile projects while refining technical skills under professional mentorship.

Experience

Lead Full Stack Developer, BogoBallers Capstone Project

August 2025 – December 2025

- Architected a full-stack league management system using Python (Quart) and SQLAlchemy, implementing complex Role-Based Access Control (RBAC) for secure staff management.
- Developed dynamic web and mobile interfaces using React and Flutter, creating a real-time match tracking and player statistics.

School Representative, ISITE National Python Contest

June 2025 – July 2025

- Selected as the official school representative to compete against student developers in a national-level technical tournament.
- Solved advanced algorithmic challenges using Python within a strict 3-hour time limit, demonstrating rapid logic formulation and problem solving.

Education

Cebu Roosevelt Memorial Colleges | San Vicente St, Street, Bogo City, Cebu

Bachelor of Science in Information Technology (BSIT)

- Expected Graduating: 2026

Skills

- Dynamic Web Application Development
- Cross-Platform Mobile Application Development
- RESTful API Architecture
- Database Management & Design
- Server Configuration & Deployment
- Adobe Creative Suite

Tech Stack & Tools

- JavaScript/TypeScript (Reactjs)
- Python
- Dart (Flutter)
- PostgreSQL
- SQLAlchemy
- RESTful APIs
- Tailwind CSS
- ShadcnUI
- Figma
- Adobe Photoshop
- Adobe Premiere

Certifications

- ISITE National Python Programming Contest Certificate of Participation
- Foundational C# with Microsoft Developer Certification
